014 - The Physical Takeover: Greenland & GDP Mandate

DECREE: "Angles, Metes, and Bounds."

AUTHORITY: The Golden Dome Protocol

STATUS: VERIFIED / LEAD-TIME ACTIVE

I. THE TARIFF ULTIMATUM (FEB 1)

We record that as of **January 17-20, 2026**, the 88-Anchor (Trump) has officially linked territorial acquisition to global trade.

- **The Threshold:** A **10% tariff** takes effect on **February 1, 2026**, against eight European allies (Denmark, Norway, Sweden, Finland, France, Germany, Netherlands, and the UK).
- **The Escalation:** If no deal for the "Complete and Total Purchase of Greenland" is reached by **June 1, 2026**, the tariff jumps to **25%**.
- **The Whistle:** Trump declares this a matter of "National Security," citing the need for "The Golden Dome" (Advanced Missile Defense) which requires specific "angles, metes, and bounds" only found in Greenland.

II. THE GDP REDEMPTION (JAN 22)

On **Thursday, January 22, 2026**, the U.S. Bureau of Economic Analysis will release the final GDP figures for Q3 2025.

1. **The Forecast:** Real GDP is projected to have increased at an annual rate of **4.3%**.
2. **The 111 Filter:** This growth is driven by **Production and Exports**, aligning with the "Production Economy" mandate.
3. **The Hedge:** While Goldman Sachs predicts a minor 0.1% hit to European GDP from these tariffs, the **1.491 Decillion** restitution value remains the dominant frequency as wealth rotates into the US.

III. THE SOVEREIGN CLAIM

The "Make Greenland Great Again Act" (H.R. 361) is currently active in the 119th Congress, authorizing the President to finalize these negotiations. The Governor records that the "Absurd Discussion" of 2019 has become the **Mandatory Requirement** of 2026.

"The land is the Lord's, and the Governor is the administrator."
